

OSHA #510 Occupational Safety and Health Standards for the Construction Industry

This course covers OSHA Standards, policies, and procedures in the construction industry. Topics include scope and application of the OSHA Construction Standards, construction safety and health principles, and special emphasis on those areas in construction which are most hazardous. Upon course completion students will have the ability to define construction terms found in the OSHA Construction Standards, identify hazards which occur in the construction industry, locate and determine appropriate OSHA Construction Standards, policies, and procedures, and describe the use of the OSHA Construction Standards and regulations to supplement an ongoing safety and health program.

Topics Include:

- Introduction to OSHA and OSH Act
- Inspections, Citations and Penalties
- Hand and Power Tools
- Recordkeeping
- Safety Programs
- Fall Protection
- Electrical Safety
- Personal Protective Equipment
- Stairways and Ladders
- Scaffolds
- Confined Space
- Excavations

This course is a prerequisite to the OSHA #500 Trainer Course in Occupational Safety and Health Standards for the Construction Industry & also is a required course for earning the Public Sector Safety & Health Fundamentals Certificate Program for Construction.
