

National Safety Council's Bloodborne & Airborne Pathogens Train the Trainer Course

Is Your Organization in Compliance with the OSHA Standard?

Employees, business owners and anyone who has a reasonably anticipated occupational exposure to blood or other potentially infectious materials in the course of their work is covered under the OSHA Bloodborne Pathogens Standard 29CFR 1910.1030.

This NSC instructor-led classroom course helps reduce these risks by focusing on how to protect employees from blood and airborne pathogens and what to do if an exposure occurs.

The course covers:

- Fundamentals of bloodborne pathogens training
- Essential information on hepatitis viruses and HIV
- How to prevent infection from bloodborne pathogens
- Key facts about airborne pathogens, including tuberculosis

Course Content and Materials

In addition to the entire text of the OSHA standard and glossary of terms, this course includes:

- A thorough introduction to bloodborne and airborne pathogens, including Hepatitis B, Hepatitis C, HIV and TB
- Proven steps to reduce exposure risks and prevent infection
- Action to take if an exposure occurs
- The Needle Stick Safety and Prevention Act
- Record-keeping and exposure control plans

Who Should Take This Course?

NSC Bloodborne and Airborne Pathogens training is OSHA compliant and offered in both classroom and online formats. Candidates for this course include:

- Employees trained in first aid CPR/AED who are responsible for rendering medical assistance
- Plant operations engineers, maintenance workers and janitors
- Fire, police, first responder and healthcare professionals
- Teachers, coaches, school personnel and childcare workers
- Hotel housekeepers and hospitality workers
