

Ergonomics: Managing for Results

When and Where:

January 11, 2019

at the Chesapeake Region Safety Council - 2555 Lord Baltimore Drive, Suites N-R Baltimore, MD 21244

Repetitive motion and overexertion are the biggest risk factors facing American workers today. We'll show you how to reduce the number and severity of musculoskeletal injuries in your workplace with a practical and effective ergonomics program.

What you will learn:

- You will learn the basic concepts relating to ergonomics in the workplace
- Gain skills to recognize ergonomic risk factors related to Musculoskeletal Disorders (MSDs)
- Determine how to conduct an ergonomic worksite analysis, and evaluate and rank hazards
- Assess various control methods, and select the method best suited to the level of risk
- Identify steps to implementing a successful ergonomics program at your workplace.

Who should attend?

Business owners, employers, supervisors, managers and/or employees

Ergonomics

Training goal:

Take control of the #1 cause of workplace injuries, reduce costs, and improve employee morale.

Price:
