

National Safety Council's Advanced **First Aid**

OSHA mandates that a trained first aid responder must be present in high risk industries with the most dangerous jobs where medical emergencies require immediate emergency response. Ensure compliance and prepare your workforce with this comprehensive advanced first aid course.

It's the industry-leading occupational first aid training that will help your workforce recognize and act competently and confidently in an emergency situation in order to sustain life.

Participants will learn how to:

- Give basic life support training commonly taught to health care and rescue professionals
- Control bleeding and manage shock
- Care for injuries and medical emergencies
- Give advanced resuscitation techniques

3-day course which includes classroom instruction and hands on exercises in the following topics:

NSC Advanced First Aid

- Patient Assessment
- Professional Rescuer CPR/AED
- Bleeding/Shock management
- Soft tissue injuries/Burns
- Musculoskeletal injuries (Head, spine, bone, joint, sprains etc.)
- Illnesses (cardio, diabetes, behavioral, allergies etc.)
- Lifting/Moving patients

Bloodborne/Airborne Pathogens (NSC)

Basic Life Support (NSC)

This course is designed for everyone in the workforce whether you are at a manufacturing facility, on a construction worksite, in an office or education facility, any place where an emergency can occur when immediate action will help save a life.

Unintentional injuries account for over 29 million emergency department visits and 130,800 deaths per year in the United States. In many cases the victim's life depends on actions that first aiders take during the first few minutes before emergency responders take over.
