## Learning Objectives

*Upon completing this course, participants will be able to:*

- Create a safety and health management plan for their company or facility
- Use problem solving and decision making to help resolve their organization's safety and health issues
- Assess organizational practice and environmental conditions
- Develop a budget for their safety and health efforts

**Fee:** \$1295 for Members \$1650 for Non-Members  
2.6 CEU's - 2.6 COC's

## The Advanced Safety Certificate

(ASC) is the National Safety Council's program for the development of safety professionals. Those who earn it can be justifiably proud of their accomplishments. It places them a cut above others in the field and tells their top management that they are better able to develop and implement an effective safety and health program. The ASC targets skills that increase compliance with regulatory standards, improve productivity and enhance employee participation in the safety and health process. Those who earn the ASC are better able to provide other employees with training needed to make a safety and health program work, and fulfill their responsibilities as part of management.
