

OSHA 7105

Introduction to Evacuation & Emergency Planning

8:00am to 4:00pm

When & Where:

January 24, 2020

Chesapeake Region Safety Council - 2555 Lord Baltimore Drive, Baltimore, MD 21244

This course covers OSHA requirements for emergency action and fire protection plans. Course topics include purpose and requirements of emergency action and fire prevention plans, elements of emergency evacuation plans, and features of design and maintenance of emergency exit routes. Students will participate in workshops pertaining to the development of emergency action plans. Upon course completion students will have the ability to list the elements of an emergency action plan and emergency evacuation floor plans, recognize violations of OSHA exit route requirements, determine whether their organization requires an emergency action plan, and develop and implement workplace emergency action and fire protection plans.

The events of September 11, 2001 have forced employers to think seriously about the need to plan what they will do in the event of all types of emergencies including:

- Chemical spills
- Radiological accidents
- Explosions
- Civil disturbances
- Workplace violence resulting in bodily harm and trauma
- Floods
- Hurricanes
- Tornadoes
- Fires
- Chemical or biological weapon attacks
- Toxic gas releases

At the end of the course, participants will be able to:

1. Determine whether they are required to have an Emergency Action Plan.
2. List the elements of an Emergency Action Plan.
3. Identify elements of a good emergency evacuation floorplan.
4. Recognize violations of OSHA's exit route requirements.
5. List terrorism risk factors affecting the vulnerability of a facility or worksite
6. Describe a process to prioritize risks
7. List 3 types of risk management measures
8. Describe and use the OSHA Evacuation Planning Matrix and Fire and Explosion Planning Matrix
