OSHA 7500 Introduction to Safety and Health Management

Two Dates: May 17, 2009 & July 26, 2019

Chesapeake Region Safety Council

2555 Lord Baltimore Dr. Suites N-R Baltimore, MD 21244

8:00 am - 2:30 pm

The focus of this one-day seminar is the effective implementation of a company's safety and health management system. The seminar addresses Injury and Illness Prevention Programs (I2P2) with instruction in management leadership, worker participation, hazard identification/prevention/control, and program evaluation and improvement. The four core elements of an effective safety and health system and those central issues that are critical to each element's proper management are presented as well.

This introductory course addresses the four core elements of an effective safety and health program with strategies and techniques that are critical to each element's proper management. The course is designed for the small employer, business owner or manager designated with the responsibility to develop and manage a firm's safety and health program or system.

A nationwide event to raise awareness and understanding of the value of proactive safety and health programs in workplaces.

Learning Objectives:

Upon completing this course, participants will be able to:

- Discuss the key elements of a successful I2P2..
- Explain the benefits of implementing a safety and health management system.
- Identify the core elements of an effective safety and health program.
- Describe the key processes in each program element
- Using interactive assignments and thought-provoking group projects, students of this one day workshop come away with a strong understanding of the benefits in implementing a safety and health management system in the workplace.
