

March 12, 2021

Chesapeake Region Safety Council 2555 Lord Baltimore Drive, Baltimore, MD 21244

Electricity has long been recognized as a serious workplace hazard. OSHA's electrical standards are designed to protect employees exposed to dangers such as electric shock, electrocution, fires, and explosions. Participants will gain the knowledge and skills to prepare and deliver training that explain hazards and acceptable corrective measures for Electrical Safety.

This Trainer Course is recommended for inspectors, auditors, safety and health professionals and those personnel responsible for writing, auditing, or training employees with an active role in electrical safety policy and procedures.

Course Objectives

- Determine electrical safety training needs
- Identify goals and objectives
- Identify materials and information necessary to train employees
- Develop learning activities (i.e., lecture, on-the-job, hands-on, discussion, or a combination of all of these)
- Conduct the training; each student will be responsible to develop and present an assigned topic on electrical safety to the class and be evaluated on that presentation.
- Evaluate Training and Presentations

Class Time: 8:00am - 4:00pm

Price: \$195 for CRSC/NSC Members

\$249 for Non-Members

Price includes: refreshments, lunch and student materials

Every student will receive a student binder and a flash drive which includes:

- PowerPoint Presentations
- video clips
- test questions
- additional resource information

Prerequisite:

In order to attend this course you must have completed the OSHA 3095 Electrical Standard course within the last 12 months and provide the CRSC with a copy of your course completion certificate.
